SUMMARY

Fresh graduate in Informatics with a strong passion for crafting seamless digital experiences through both design and development. Experienced in building responsive, user-centric web interfaces using modern technologies like Next.js and Tailwind, while also skilled in creating clean, accessible UI/UX designs with Figma. Enjoys bridging the gap between user needs, visual design, and frontend functionality.

EXPERIENCES

Frontend Web Developer (Freelance)

Widi - Tasikmalaya, Indonesia   June 2024 – Sep 2024

- Designed a user-friendly marketing website from scratch, focusing on layout, color, spacing, and hierarchy.
- Crafted intuitive UI/UX designs that improved user engagement and provided seamless experiences on multiple devices.
- Utilized Next.js, TypeScript, and Tailwind CSS to implement scalable, maintainable, and high-performance frontend solutions.
- Developed and maintained the frontend of multiple web applications, ensuring fast loading times, SEO optimization, and enhanced usability.
- Collaborated with stakeholders to iterate designs based on feedback.

Frontend Web Developer (Internship)

PT. Quadra Karya Santosa - Bandung, Indonesia   Sep 2023 – Nov 2023

- Developed a static, responsive marketing website based on designs provided by the UI/UX team.
- Built the website using Next.js, TypeScript, and Tailwind CSS, focusing on clean, efficient code and responsiveness.
- Worked closely with the design team to ensure accurate design implementation and a polished user interface.
- Partnered with senior developers to enhance web features and improve overall functionality.

SKILLS

- **Frontend**: React.js, Next.js, React Native, TypeScript, Tailwind CSS, Framer Motion, GSAP
- **Backend**: Nest.js, Prisma, MongoDB, Appwrite
- **Design Tools**: Figma, AdobeXD, Photoshop
- **Data Handling**: Axios, React Query, Zod
- **Others**: GIT
- **Soft Skills**: Problem-solving, Fast Learner, Team Collaboration, Visual Thinking, Time Management

EDUCATION

Universitas Siliwangi

Bachelor of Informatics, 3.79 / 4.00   Sep 2020 – Nov 2024

- Specialized in Informatics and Intelligent Systems (ISI), with a focus on Artificial Intelligence.
- Engaged in self-directed learning and development, dedicating time to mastering frontend technologies, including HTML, CSS, and modern frameworks like Next.js and Tailwind CSS.
- Independently created and developed multiple personal web projects, utilizing Next.js, TypeScript, and Tailwind CSS to build responsive and performant websites.
- Continuously improved technical skills through online courses, tutorials, and hands-on project work, focusing on frontend web development and user-centered design.

PROJECTS & CERTIFICATE

Pathnime – Anime Streaming

Tech stacks: Next.js, TypeScript, Tailwind CSS, React Query, Zustand

Pathnime delivers a minimal and user-friendly anime streaming experience. Clean spacing, balanced contrast, and intuitive structure were emphasized to ensure users can easily discover and watch content without distraction.

VerseHaven – Aesthetic Poem Archive

Tech stacks: Next.js, TypeScript, Tailwind CSS, React Query, Zustand

VerseHaven is a platform for reading and appreciating poems from various authors. The interface is crafted with a vintage, paper-like aesthetic to evoke the feeling of reading physical poetry. Focused on typography, mood, and thematic visuals to enhance emotional connection through design.

Kanacat – The World of Cats

Tech stacks: Next.js, TypeScript, Tailwind CSS, React Query, GSAP

Kanacat is an interactive and visually appealing platform that provides comprehensive information on cat breeds worldwide. Users can also engage with the content by liking or voting for their favorite breeds.

Kanasave – Downloader Tools

Tech stacks: Next.js, TypeScript, Tailwind CSS, Framer Motion, React Query

Allowing users to download videos from social media. The platform offers a responsive and intuitive interface with seamless API integration, ensuring fast and reliable downloads across multiple devices.

DevLens - Interactive Data Handling

Tech stacks: Next.js, TypeScript, Tailwind CSS, Axios, React Query

Guides users through fetching, displaying, sorting, filtering, and searching data. Designed to improve user engagement and enhance data-handling skills through a clean, responsive user interface.

Widi – Marketing Website

Tech stacks: Next.js, TypeScript, Tailwind CSS, Framer Motion

Static website for promoting licensing services. Built with Next.js, Tailwind CSS, TypeScript, and Framer Motion, I also designed the UI/UX for a seamless and professional user experience

Certificate: Next.js: The Complete Developer's Guide

Udemy – May 2024

Comprehensive training on building scalable, high-performance web applications using Next.js, focusing on server-side rendering, API routes, and advanced routing.
